

OPERATIONALIZATION OF INDUSTRIAL FACILITIES FOR PROCESSING AND VALORIZATION OF URBAN WASTE

Line Ministry	Ministry of Environment Green Economy and Climate Change (MEEVCC)
Justification	To manage major environmental issues, (waste, pollution) in line with population growth and urbanization, and which negatively impact public health in urban environment
Areas of intervention	Regions of the Cascades, the Centre, the Centre-West, the Hauts-Bassins and the North
Duration	2017-2020
Sector and sub-sector activities	Environment
General objective	To promote a healthy environment for the populations
Specific objectives	<ul style="list-style-type: none"> - To build urban waste valorization and processing units - To sanitize life quality of the populations - To create decent green jobs
Expected outcomes	<ul style="list-style-type: none"> - 5 production facilities of treatment and valorization of urban waste are built in 5 cities having information system strategic plans of management of waste - life of the populations of the 5 cities having Master Plans for waste management - Decent green jobs are created in 5 cities having Master Plans for waste management is improved
Beneficiaries	Urban populations of the project intervention zones, urban city councils
Components	<ol style="list-style-type: none"> 1. Development of Master Plans for solid waste management 2. Construction or reinforcement of the production facilities of treatment and valorization of urban waste 3. Building operational capacities of industrial facilities for waste processing 4. Project management
Availability of feasibility study: Available Not available	Feasibility study not available
Total cost: Financing acquired Financing required	15 billion CFAF, equivalent to 22,867,353 Euros Financing sought
Type of sought partnership: TFP PPP	TFP
